KALVA LAKSHMI BHASHITHA

Computer Science & Engineering Student

Email: bhashitha.kalva@gmail.com | **LinkedIn:** https://www.linkedin.com/in/kalva-lakshmi-bhashitha | **GitHub:** https://github.com/bhashithakalva

PROFESSIONAL SUMMARY

Computer Science and Engineering student interested in Cloud Computing, AI, Software Development, and creative technology. Hands-on experience with Python, C, Google Cloud, and Firebase through academic and personal projects, with ongoing learning in Java, Object-Oriented Programming, and Data Structures & Algorithms. Serves as Digital Creation Department Co-Lead at Microsoft Learn Student Club (MLSC), VRSEC, combining technical learning with creativity, collaboration, and a passion for building practical solutions to real-world problems.

EDUCATION

B.Tech — Computer Science and Engineering
Siddhartha Academy of Higher Education | 2025–2029
CGPA: 9.04/10 (Pursuing)

Intermediate — MPC
Sri Chaitanya Junior College | 91.7%

Secondary School Certificate (SSC)
Sri Chaitanya School | 91.6%

TECHNICAL SKILLS

- **Programming Languages:** Python, C, C++, Java
- **Cloud and Backend Technologies:** Google Cloud, Firebase, Firestore, Flask
- **Developer Tools:** Git, GitHub, VS Code
- **Areas of Interest:** Cloud Computing, Full-Stack Development

PROJECTS

1. **Hostel Management System:** Web application for hostel operations, student access, and staff workflows using Python, Firebase, and Google Cloud.
2. **Bus Ticket Booking System:** Ticket reservation application using Python, Flask, Firebase, and Google Cloud.
3. **AI Chatbot:** Chatbot that retrieves cloud-stored responses to answer user queries.
4. **Real-Time AI Mock Interview:** AI-based interview practice platform designed to simulate interviews.
5. **Hotel Management System:** Java console application supporting room bookings, guest services, restaurant reservations, billing, and file handling.
6. **EduSphere:** Education-focused AI/ML concept for academic monitoring and personalized student support.
7. **MoneyMaps:** Personal finance dashboard for budget tracking, transactions, financial goals, expense forecasting, and simulations.

EXPERIENCE AND LEADERSHIP

Cloud Computing Intern — CodeAlpha

- Internship experience in cloud computing and related technical tasks. Specific responsibilities and project outcomes to be added.

Digital Creation Department Co-Lead — Microsoft Learn Student Club, VRSEC

- Contribute to digital content creation and support technical community activities and initiatives.

ACHIEVEMENTS

- 3rd Place: HackSprint
- Top 20: Ideathon
- Top 50: PROMPT RUN

CERTIFICATIONS

- **Cisco Networking Academy:** C Essentials 1, C Essentials 2, C++ Essentials 1, C++ Essentials 2, Python Essentials 1, Python Essentials 2, Linux Essentials
- **Google Cloud:** Cloud Digital Leader (CDL), GCCF Certification
- **IBM:** Prompt Engineering Certification
- **Coursera:** Operating Systems
